Re: Application for summer work placement at **EA Engineering Solutions**

Dear Lorraine Cobb,

I am writing to express my sincere interest in securing a summer work placement at EA Engineering Solutions. As an enthusiastic and motivated civil engineering student eager to gain real-world experience, I am impressed by the innovative work undertaken by your organisation and am excited about the opportunity to contribute to your team during the upcoming summer months.

I am currently a third-year student at the University of London, majoring in Civil Engineering. Throughout my academic journey, I have acquired a strong foundation in CAD software, structural engineering, and project management that I am eager to apply in a practical setting. Additionally, I am particularly drawn to the company's reputation for sustainable engineering, which aligns perfectly with my career aspirations.

I am especially impressed by EA Engineering's commitment to nurturing young talent and providing mentorship opportunities. I believe that the chance to work alongside experienced professionals at your organisation would offer me invaluable insights and hands-on experience that will shape my future career. I kindly request the opportunity to discuss potential summer work placement opportunities in greater detail. I have attached my CV for your reference and would be grateful for the chance to explore how my skills and aspirations align with your organisation's goals during an interview.

Sincerely,  
Finn Turner
