

## PERSONAL PROFILE

Highly skilled and certified Cyber Security Specialist with over 7 years of experience. Adept at designing, implementing, and managing robust security solutions to protect organisations from cyber threats. Committed to staying updated with the latest industry trends with a proven track record of mitigating security risks and ensuring the confidentiality, integrity, and availability of business-critical data.

## SKILLS

Cybersecurity Risk Management, Network Security, Intrusion Detection and Prevention, Security Information and Event Management (SIEM), Security Policy Development, Threat Intelligence, Cloud Security, Incident Response, Security Awareness Training, Vulnerability Assessment and Penetration Testing.

## WORK EXPERIENCE

### Senior Cyber Security Specialist, CyberShield Technologies, London, UK | 2018 - Present

Lead a team of security analysts in monitoring network traffic and proactively identify/respond to security incidents. Conduct regular security assessments and vulnerability scans, addressing and mitigating risks. Collaborate with cross-functional teams to ensure compliance with industry regulations and standards.

- Played a key role in incident response and managed the resolution of security breaches, minimising potential damage.
- Streamlined incident response procedures and introduced automation tools, resulting in a significant reduction in incident response time.

### Cyber Security Analyst, SecureNet Solutions, London, UK | 2015 - 2018

Conducted penetration testing and vulnerability assessments for client networks and applications, offering actionable suggestions to enhance security. Collaborated closely with clients to create tailored security solutions and aided in devising incident response plans and conducting readiness exercises. Provided security awareness training to client staff, bolstering overall awareness.

- Implemented a proactive threat-hunting program that led to discovering and mitigating advanced persistent threats (APTs) before they could compromise the company's data, reducing potential data breaches by 30%.
- Successfully conducted a complex red teaming exercise, simulating a real-world cyberattack scenario, and identified critical weaknesses.

## EDUCATION

Bachelor of Science (Hons) in Cyber Security, Anglia Ruskin University, 2014
