Work Experience

Front End Developer, Web Solutions, London, UK | 2018 - Present

Collaborate with UI/UX designers to implement pixel-perfect and responsive web designs, ensuring a seamless user experience across multiple devices. Develop interactive and dynamic front-end components using React and continuously optimise website performance. Conduct cross-browser testing and ensure compatibility with various devices and screen resolutions.

- Developed interactive and dynamic front-end components using React, resulting in a remarkable 20% increase in user engagement.
- Significantly improved user experience, reducing bounce rates and increasing overall user satisfaction through efficient code refactoring and image compression techniques.

Junior Front End Developer, Web Agency, Manchester, UK | 2016 - 2018

Assisted in developing front-end features and functionalities for client websites using HTML, CSS, and JavaScript. Collaborated with back-end developers to integrate front-end components with server-side logic. Assisted in creating responsive email templates and newsletters, ensuring optimal display on various email clients.

- Played a pivotal role in enhancing user engagement and experience by assisting in developing responsive email templates and newsletters.
- Collaborated seamlessly with back-end developers to ensure the smooth integration of front-end components with server-side logic.

Additional Experience

Summer Developer Intern, AVS Solutions, UK, 2016
