Work experience

Medical Doctor (General Medicine)

St. Mary's Hospital

2020 - Present
London

Provide comprehensive medical care to adult patients with various acute and chronic conditions. Collaborate and coordinate to ensure patient care and actively participate in ward rounds, medical meetings, and case discussions.

- Attained a high level of proficiency in conducting in-depth patient assessments, encompassing meticulous screening for COVID-19 symptoms and complications, resulting in a reduction of virus transmission by 95% through strict adherence to infection control protocols.
- Managed a high-volume patient load of an average of 40 patients per day, consisting of diverse cases, including acute illnesses, chronic disease management, and preventive care.

Junior Doctor (Emergency Department)

Royal Hospital

2017 - 2020
Birmingham

Assessed and managed a diverse range of emergency cases, encompassing trauma, cardiac emergencies, and acute illnesses, while effectively performing life-saving procedures such as intubation, central line insertion, and chest tube placement. Demonstrated exceptional teamwork skills and responded promptly to medical emergencies, ensuring rapid and appropriate interventions were delivered under high-pressure circumstances.

- Achieved consistently a triage time of under 10 minutes for patients presenting to the emergency department, ensuring prompt evaluation and timely initiation of treatment.
- Implemented process improvements resulting in a 40% reduction in door-to-treatment time for emergent cases, expediting critical interventions and enhancing patient outcomes.

Additional experience

Medical Registrar Training Program, Royal Hospital, Birmingham, UK, 2015 - 2016
