WORK EXPERIENCE

WAREHOUSE OPERATIVE

2021 - Present

DHL SUPPLY CHAIN
Birmingham

Oversee all warehouse operations, manage inventory levels, and continuously improve warehouse processes and efficiency. Supervise 10 warehouse operatives to process all incoming and outgoing merchandise, ensuring timely and accurate dispatch of goods. Coordinate and liaise with logistics teams to optimise delivery schedules. Promote and foster collaborative working relationships to ensure staff feel valued and empowered.

- Trained and onboarded 6 new employees, ensuring a smooth transition into their roles and facilitating their productivity and job satisfaction.
- Implemented new safety program that led to 35% reduced waste and 60% reduced lost-time accidents.

WAREHOUSE ASSISTANT

2019 - 2021

XPO LOGISTICS
Manchester

Processed incoming stock and materials, prepared and packed orders for shipment, conducted regular stock checks and assisted with inventory management. Operated such as forklifts and pallet jacks to move and organise goods. Upheld and maintained a clean and organised work environment while adhering to health and safety regulations.

- Reduced operational expenses by up to 10% using effective stock transfers and new inventory management processes.
- Implemented a double-check system for picking and packing orders, improving order accuracy by 15%.
